

**The Tamper Evident
UltraSafe[®] Passive[™]
Delivery System.**

Preferred.

An Overt Deterrent to Help Ensure the Integrity of Unit Dose Pre-filled Pharmaceutical Presentations

- The industry's first and only system to combine tamper evidence with Passive needlestick prevention
- An overt deterrent - helps prevent or make evident, attempts to counterfeit or adulterate unit-dose pre-filled pharmaceutical presentations
- The tamper evident feature adds an important layer of security - and is functional from product manufacturing through final drug administration
- Ensures the ultimate in user preference, compliance and protection
- Unique branding capabilities
- Available for evaluation

The Tamper Evident
